

## Fact Sheet:

# An Overview of California's Driving-Under-the-Influence Program

## Overview

The Department of Alcohol and Drug Programs' Office of Criminal Justice Collaboration administers the Driving-Under-the-Influence (DUI) Program through its DUI Program Branch. The DUI Program Branch licenses and monitors all DUI programs statewide; establishes regulations, approves participant fees and fee schedules, and provides DUI information and technical assistance.

The objective of DUI programs is to: (1) reduce the number of repeat DUI offenses by persons who complete a state-licensed DUI program; and (2) provide participants an opportunity to address problems related to the use of alcohol and/or other drugs.

The Department currently licenses 251 first-offender, 195 eighteen-month, and 31 thirty-month multiple offender programs.

In fiscal year 2007-2008, 150,484 DUI offenders enrolled in California's licensed DUI programs. Of that number, 114,706 offenders successfully completed all aspects of their programs.

## Licensure

Although the Department is responsible for licensing all DUI programs statewide, the licensing process begins with the county board of supervisors, in concert with the county alcohol and drug program administrator, by recommending applicants to the State for licensure.

Applicants must demonstrate administrative, fiscal, and operational capabilities to operate a DUI program; provide programs clean, safe, and free of alcohol or illicit drug use; and adherence to all applicable statutes and regulations.

Following the review and approval process a license is issued for the provision of DUI services.

## Offender Programs

### *Wet Reckless Program*

Persons convicted of reckless driving with a measurable amount of alcohol in their blood complete a 12-hour DUI education program.

### *First Offender Program*

Persons convicted of a first DUI offense complete a three-month, 30-hour alcohol and drug education and counseling program. However, first offenders with a blood alcohol content of 0.20 or higher complete a nine-month, 60-hour alcohol and drug education and counseling program.

### *18-Month Program*

Second and subsequent DUI offenders complete 18-month multiple offender programs with 52 hours of group counseling, 12 hours of alcohol and drug education, 6 hours of community reentry monitoring, and biweekly individual interviews during the first 12 months of the program.

### *30-Month Program*

A county may elect to provide 30-month DUI programs for third and subsequent DUI offenders. Los Angeles and Stanislaus Counties are currently the only counties with these services available. Program requirements are: 78 hours of group counseling, 12 hours of alcohol and drug education, 120-300 hours of community service, and close and regular individual interviews.
