## INTRODUCTION

The California Department of Alcohol and Drug Programs is proud to present the *Technical Assistance and Training Resource Directory*, created to assist California agencies, organizations, community groups and individuals in identifying and utilizing technical assistance services (TA) and other information sources to complement existing services. On the following pages, you will find resources to help reduce and prevent problems associated with alcohol, tobacco, and other drugs (ATOD).

This directory is divided into two sections:

The first section contains a list of contractors funded by the California Department of Alcohol and Drug Programs (ADP) to provide ATOD technical assistance and training. The contract services are provided on a statewide basis with the cost paid by ADP. The services are listed by subject area, noting that some contractors have multiple areas of expertise and may be able to provide TA services in various subject areas. Please contact the organizations directly for specific information and requirements.

The second section, *Other Information Sources*, lists only Federal and State funded organizations that provide specific ATOD-related information, TA, and/or training. These organizations are not funded by ADP and may or may not charge a fee for their services. However, the Resource Center is funded by ADP and does not charge for its services. You may contact the organizations directly for more information.

Every attempt has been made to make this directory as comprehensive, accurate, and current as possible. However, if you find an error, have a correction or addition, please complete the Directory Listing Change Form and mail or fax it to ADP at the address or fax number found on the form. Inclusion of a program in this directory does not imply an endorsement by the California Department of Alcohol and Drug Programs.

Web: [www.asaging.org/AOD](http://www.asaging.org/AOD)

Description of Technical Assistance/Training Services or Materials

The project focuses on training on issues of alcohol and other substance abuse in the aging population. This includes prescription and over-the-counter drug abuse/misuse. ASA carries out a wide range of activities, such as formal training sessions and conferences, coalition building, and telephone and on-site TA. ASA utilizes a pool of consultants representing both nationally known experts and California-based professionals with expertise in diagnosis, treatment, program development, public and family education, rural populations, family dynamics, and related topics. ASA maintains a project website, [www.asaging.org/aod](http://www.asaging.org/aod) <<http://www.asaging.org/aod>>, that can be used to access training opportunities, resource information and ask the expert inquiries on issues of substance abuse and older adults.

Populations or Groups Served

The aging population (60 and over).

Eligibility Criteria

Non-profit and governmental agencies providing services to the aging population and those addressing AOD problems in older adults are eligible for training and TA. Activities which clearly address the project objective of overcoming barriers which prevent older adults from utilizing and benefiting from AOD programs are given highest priority.

Application Procedure

Description of Technical Assistance/Training Services or Materials

The Safe and Drug Free Schools and Communities (SDFSC) technical assistance (TA) project aims at reducing alcohol, tobacco and other drug use, and violence problems among California's youth through education and prevention. Cost-free technical assistance and training are available to the forty-three SDFSC grantees. The purpose of the TA is to facilitate compliance with federal and state guidelines, such as the Principles of Effectiveness, with the final goal of providing more effective ATOD and violence prevention services. Grantees benefit from services through knowledge and skill development, and programmatic application. Training topics include: logic models, model programs, science-based curricula, environmental prevention, strategic planning, organizational program evaluation, development of culturally competent prevention programs, as well as customized TA and training based on specific needs.

Populations or Groups Served

Counties that have been awarded SDFSC grants have access to this technical assistance and training. The populations to be served by these grants are at-risk youth and underserved youth and their environments.
